Grand'Arte Arinto in Fugas Magazine

In his July edition, the magazine Fugas appreciated Grand'Arte Arinto 2008

The Arinto was one of the good portuguese grape varieties, being produced in almost all
the country. It gain fame in Bucelas where it's the dominant grape variety and produce
great varietal wines, but it's also used in blend in Alentejo, Douro and in the Vinhos
Verdes region – here under the name of Pedrenã. This Arinto being from Estremadura it
shows a mineral character and fresh of the grape and some fruit citric and exotic. Very
well balanced and attractive. Tasting note: 7.5 Edited in the weekly newspaper add

Wines of Portugal 2010 by Manuel Moreira

Grand'Arte Arinto 2008 appreciated by Manuel Moreira

Aromatic, full of fruit, raisin notes, mineral and subtle floral giving it an immediate attractive pleasure without renouncing to a good dose of character. 16.5 / 20 Pts

Vinhos de Portugal 2012 de João Paulo Martins

"15.5 Grand'Arte Regional Estremadura Arinto Branco 2008 DFJ The aroma is still in good shape, with good citrus notes, fresh with good finesse, registered as specially elegant. The tasting evolution shows that the wine lost some structure, it's now more diluted, lacking complexity. Not worth keeping and should be consumed now. Forget the cellar."
